Dear 4-H Members and Parents,

I hope you all are enjoying your summer and that you have had ample time to spend on your fair projects. The fair registration packets this year contain information regarding RV and horse stall reservations, Livestock Rules, W9's, and COVID-19 safety protocols. This year you will be able to upload your completed forms directly to FairEntry.

All members must sign acknowledging that they have read the fair rules and COVID-19 safety protocols. Livestock members will also be required to sign the International Association of Fairs and Expositions (IAFE) National Code of Show Ring Ethics.

Read over the forms for RV and horse stall reservations, these only need to be returned/uploaded if you need a stall/RV reservation. Contact the office if you need more information.

Included is a W-9 form that all 4-H Exhibitors must fill out and return/upload. Please note, that should any payout be more than \$599, we are required to send a 1099 form to be in compliance with the Internal Revenue Service (IRS). The Middle Park Junior Livestock Sale is considered to be a person to person Ag. sale, and exhibitors are considered to be a personal business and said members should take care of income tax information when they file their returns. This is not the responsibility of the Livestock Sale Committee.

This year is another exceptional year, we are very excited to see everyone and their projects here at the fair. There will be some differences this year, all related to the COVID-19 pandemic, but we hope this year looks and feels a little more normal. The Fair Board, Extension Office, Grand County Government and Public Health have all been working together to have a fair in a safe manner. Please help to keep our fair a safe environment by following the COVID-19 safety protocols, guidance, and any signage you might see on the grounds.

If you have any questions, please don't hesitate to contact our office or myself directly at (970)724-3436 or [olivia.k.clark@colostate.edu](mailto:olivia.k.clark@colostate.edu)

Warmest regards,

Superintendents, Extension Director, or veterinarian all may be the dentition examiner.

**NATIONAL CODE OF SHOW RING ETHICS**  
**IAFE (INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS)**

Exhibitors of animals at livestock shows shall at all times conduct themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of drugs. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event, which culminates with the animal entering the food chain, shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the chemical analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested (by the approved laboratory to which it is sent) is the one taken from the animal in question. Its integrity is preserved and all procedures of said collection and preservation transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise at any hearing in regard to the matter conducted by the fair or livestock show.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.

**SIGNATURES REQUIRED ON THE BACK OF THIS FORM!**

7. Direct criticism or interference with the judge, fair, or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of

their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation, and respect and no person shall direct abusive or threatening conduct toward them.

8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have any disciplinary action taken by the fair or livestock show against such individuals published in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
11. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

### **LIVESTOCK EXHIBITOR ENTRY STATEMENT**

I have read and understand, consent to, and agree to abide by the IAFE (International Association of Fairs and Expositions) National Code of Show Ring Ethics as stated in the premium list of this event.
